SKILLS

- **Languages:** C++, Python, Javascript, Kotlin
- **Frameworks:** Flask, FastApi, NodeJS, Scikit-learn, Tensorflow
- **Tools/Platforms:** Git, Github, Jupyter-Notebook, Google-Colab, Android Studio
- **Soft Skills:** Problem-Solving, Team Player, Adaptability

PROJECTS

- **PersonaPath – AI powered Personality Analyzer** [🔗](#) Jul 2025

AI tool that analyzes a user's recorded video and provides scores for fluency, posture, eye contact, and personality traits using speech processing, computer vision, and NLP.

- Developed PersonaPath with the objective of providing automated communication and personality evaluation using AI to help individuals assess and improve soft skills.
- Built a multimodal analysis pipeline using MediaPipe, dlib, DeepFace, Whisper, and a fine-tuned BERT model to evaluate eye contact, posture, speech fluency, and personality traits from short video input.
- Delivered automated scoring with consistent results and end-to-end analysis completed in under 10 seconds, enabling scalable soft-skill assessment.

TECH STACK: Python, Flask, Tensorflow, Javascript, Html.

- **Animal Skin Disease Classifier API – AI-Based Veterinary Diagnosis System** [🔗](#) Jun 2025

A FastAPI-based system that detects common skin diseases in dogs, cats, and cows using TensorFlow models and generates medicine recommendations through Gemini.

- Developed a scalable API with FastAPI supporting image uploads and lazy model loading for optimized performance.
- Integrated TensorFlow/Keras models for multi-species disease classification and Gemini for automated medicine suggestions.
- Achieved fast inference and reliable classification across multiple animal categories, improving accessibility to veterinary guidance.

TECH STACK: Python, FastApi, Keras, Tensorflow, Gemini-SDK.

TRAINING

- **LPU Centre for professional Enhancement** [🔗](#) July 2025

Android Developer Pro: Hands-on Project & Play Store Launch – No Experience Needed!

- Completed a hands-on Android development training focused on building modern mobile applications using Kotlin and XML-based UI design.
- Gained practical experience in Android Studio, application lifecycle, activities, fragments, and UI/UX design principles.
- Worked with Android SDK components including RecyclerView, intents, permissions, navigation components, and data handling.

CERTIFICATES

- Machine Learning Specialization by Stanford and DeepLearning.ai [🔗](#) Oct 2025
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional [🔗](#) Sep 2025

ACHIEVEMENTS

- **Innotek 2025** [🔗](#) Apr 2025
Selected to represent the School of Computer Science and Engineering at the Annual Project Expo.
- **Model Masters Expo** Mar 2025
Achieved Top 3 ranking in Model Maestro Expo to showcase project at the School of CSE Annual Project Expo.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.11** Since August 2023
- **Vivekanand Mission School** Bihar, India
Intermediate: **Percentage: 84** April 2020 - March 2022
- **Vivekanand Mission School** Bihar, India
Matriculation: **Percentage: 83** April 2015 - March 2020
